

Let us sponsor your kids team sports!

We are envisioning a stronger, healthier, and much happier generation growing up in our community. We want to invest in them. When we sponsor a team, we do an Injury Prevention and Athletic Safety presentation/demonstration with the team and their parents - ideally at the end of the preseason meeting. We want the athletes we sponsor to have a successful season and be educated on how they can perform at their best. The presentation is typically around 10-12 minutes. We started an organization called Big Fish Team Doc to help support local athletic teams. There are now 12 clinics that are a part of Team Doc across the country. www.bigfishteamdoc.com

Sponsorship Includes:

- Free Functional Movement Screening for All Players
 - All professional and collegiate athletes use this screening tool to help prevent injuries and get a baseline of the athlete's movements. There are 7 total functional movements that track all necessary ranges of motion of the athlete.
- Free 60 minute massage for all coaches
- Sponsorship \$ amount is based on the !
